① Event Information, Conference Benefits and Service

WINDFORCE Baltic Sea 2017

8 and 9 February in Tallinn, Estonia

Event information

On 8 and 9 February 2017 WAB e.V. organizes in cooperation with the Offshore Wind Messe und Veranstaltungen GmbH (OWMV) the WINDFORCE Baltic Sea Offshore Conference for the fifth time. This time the Baltic Sea will take place in Tallinn (Estonia).

The focus of this two-days event is on the development of offshore wind in the Baltic region. The challenges facing offshore wind power production in the Baltic Sea greatly differ from those in the North Sea. Knowing that experience gained in other parts of the world can be extremely helpful in developing an offshore wind industry in the Baltic countries.

We have organized sessions at our conference to cover themes ranging from the debate on policy-making to logistics, grid connection or financing. No other conference offers such a comprehensive overview of the latest developments in the countries bordering the Baltic: Denmark, Sweden, Finland, Poland, Estonia, Lithuania and Germany.
